

# Customer Workflow

- Customer places an order.
- Notification is sent confirming the order is securely locked in their designated locker.
- Locker number and a one-time secure PIN are provided.
- Customer uses the PIN to open the locker and retrieve their food hassle-free.

# Delivery Partner Workflow

- Delivery partner picks up the order.
- Upon reaching the location, delivery partner finds locker details.
- Uses the secure PIN to open the locker.
- Places the parcel inside, takes a picture for confirmation, and then departs.
